

## Melbourne Boomers Academy – COVID Protocols

Date created and approved: March 2021  
Last reviewed and approved: March 2021  
Responsible officer: General Manager

### Background

The guidelines below serve as a minimum standard of actions that are required to be taken to reduce the threat of COVID-19. The guidelines will be updated from time to time as required and all participants, coaches, staff and officials at the Melbourne Boomers (MB) **must** adhere to them.

These guidelines have been developed in line with information available from State Government, and in consultation with the management of the State Basketball Centre (SBC).

### Entry to venue

- Upon entry to the venue all individuals will be required to complete a QR code check-in. For those over 18 individual check in is required. For families, a single representative of the family can check-in and list all family members.
- Hand sanitiser will be available upon entry to the venue and all attendees must sanitise their hands upon entry.
- If an individual is ill, has a fever, cough, runny nose, sore throat or is showing any other sign of being unwell, they will not be permitted to enter the venue.

### Club Safety Officer

The role of the Club Safety Officer (CSO) will be to ensure that all safety procedures are adhered to.

- The CSO and any person delegated to oversee implementation of a safety procedure will have completed the *COVID-19 Infection Control Training*, as set out by the Australian Government.
- In the first instance the CSO for the MB will be Academy Manager, Jacinta Vandenberg. If she cannot be in attendance for any session, the responsibilities of the CSO will be clearly delegated to another team official who will be in attendance.

### Sessions

- All participants must arrive at sessions in their training clothes ready to train.
- Sessions will be conducted in a set time period based on the most recent Government advice. All participants are to arrive no earlier than 10 minutes before the allocated session time and are to leave as soon as is possible after the session has concluded.
- Each participant must bring their own basketball, towel and water bottle and these are not to be shared.
- There will be portable hand sanitiser stations around the venue for use as required.
- No change room facilities will be open during sessions.
- Toilet facilities will be available.
- Social distancing is recommended for parents watching the sessions.

### After training

- Participants should endeavour to leave the venue as soon as possible, and should shower in the same manner at home after training.
- Training clothes should be washed after each training session.
